

Spleen United, She Falls In Love With Machines

She falls in love with machines and that's why
She fell in love with me yeah that's right
She doesn't know what it means to be my girl
She doesn't know what I mean by control
She doesn't know what it takes to be my girl
She doesn't know what I mean by control
Control
Control

She falls in love with machines and that's why
She fell in love with me yeah that's right
She doesn't know how to catch the things I throw
She doesn't know what I mean by control
She's never going to feel my love for free
Some things I do for you and you for me
And that's control
Control
