

Spock's Beard, Skin

Like a star with a blue moon rising
You complain but you keep surprising yourself
Like a dog who's been kicked all over
You tried to quit but you can't stop kicking yourself

It's the truth - it's a lie - love will never die

Don't you see it's like tryin' to climb out of your skin
You're like a butterfly fighting the wind
Don't you see it's like tryin' to climb out of your skin

You shut down tried to not be special
Lights were off but someone's always been home
May as well not resist temptation
Plug yourself in the wall and light up the town

Time is up - it's alive - take this dream and drive

Climb way up to the ground
Slide on up and slide down

It's the truth - it's a lie - love will never die
It's the best you can buy - might be worth a try
Make a wish take a dive - don't just stay alive
You'll do more than survive - take this dream and drive

Climb way up to the ground
Slide on up and slide down
