

Sponge, I Am Anastasia

I found your name in a book and in
that book a letter, were the words of
a girl who said that she was lead away and
left for dead but somehow she survived
it. How was it no one would believe that
you were part of their world a different world
one they denied you
If I could help you I would
help you now you can speak through me

I am Anastasia

I'm haunted by a girl whose
life's locked in these pages
But through these words she will be free through
me I know we won't forget her
She can speak through me

I am Anastasia
