

Sponge, My Purity

If I was dirt
That filled up your Life
If I was dirt
So pure and so refined
I'd be the dirt that
blackened all that shined
Which one would show a purity
Which one would show how curious
this purity has been

My purity, My purity
My thoroughness, My purity

If I was dirt
that would make you lie
could I be the dirt
in your irreverent smile
Please pass the dirt
I'll have some on mine
Which one would show my purity
Which one would show how Curious
this purity has been

My purity, My purity
by thoroughness, My purity

Drag me down and plough me
under nothing stays the same
Drag me down and plough me
under nothing will ever change?

If I was the dirt you brought
through your doorstep
And did that dirt Leave you
feeling molested
How was that dirt that you've
ingested
Which one would show my purity
Which one would show how curious
this purity has been

My purity, My purity
My thoroughness, My purity
