

Spoon, Beast And Dragon, Adored

The beast and dragon, adored
You been gone so long
Where you been for so long
I went to places unknown
Rented a room
And I forgot my pen
Shook my twin
And I had to find the feelin again
Now all I need is a crew
One that can act as if
One that can slay on cue
And sneeze and sniff
Uh-huh alright
I'm going back to the water
Been landlocked too long
I got a feelin it don't come cheap
I got a feelin oh and then it got to
me
It took its time a-working into my
soul
I got to believe it come from rock
and roll
Believe it come from rock and roll
Where did you get for so long
I been learning my scene

I been watching my friends move
away
I summon my love back to me
And I went down by the seawall
That's when I knew, knew They
Never Got You
Great dominions they don't come
cheap
Great dominions they just want
you to leave
I got the meaning the meaning
sat tight
Said it's not what you expected
but it could be right
I got a feelin it didn't come free
I got a feelin and then it got to me
When you don't feel it it shows
they tear out your soul
And when you believe they call it
rock and roll
And when you believe they call it
rock and roll
