

# Spoon, The Beast And Dragon, Adored

The beast and dragon, adored  
You been gone so long  
Where you been for so long  
I went to places unknown  
Rented a room  
And I forgot my pen  
Shook my twin  
And I had to find the feelin again

Now all I need is a crew  
One that can act as if  
One that can slay on cue  
And sneeze and sniff  
Uh-huh alright  
I'm going back to the water  
Been landlocked too long

I got a feelin it don't come cheap  
I got a feelin oh and then it got to me  
It took its time a-working into my soul  
I got to believe it come from rock and roll  
Believe it come from rock and roll

Where did you get for so long  
I been learning my scene  
I been watching my friends move away  
I summon my love back to me  
And I went down by the seawall  
That's when I knew, knew They Never Got You

Great dominions they don't come cheap  
Great dominions they just want you to leave  
I got the meaning the meaning sat tight  
Said it's not what you expected but it could be right

I got a feelin it didn't come free  
I got a feelin and then it got to me  
When you don't feel it it shows they tear out your soul  
And when you believe they call it rock and roll  
And when you believe they call it rock and roll
