Spoon, The Beast And Dragon, Adored

The beast and dragon, adored You been gone so long Where you been for so long I went to places unknown Rented a room And I forgot my pen Shook my twin And I had to find the feelin again

Now all I need is a crew
One that can act as if
One that can slay on cue
And sneeze and sniff
Uh-huh alright
I'm going back to the water
Been landlocked too long

I got a feelin it don't come cheap
I got a feelin oh and then it got to me
It took its time a-working into my soul
I got to believe it come from rock and roll
Believe it come from rock and roll

Where did you get for so long
I been learning my scene
I been watching my friends move away
I summon my love back to me
And I went down by the seawall
That's when I knew, knew They Never Got You

Great dominions they don't come cheap Great dominions they just want you to leave I got the meaning the meaning sat tight Said it's not what you expected but it could be right

I got a feelin it didn't come free
I got a feelin and then it got to me
When you don't feel it it shows they tear out your soul
And when you believe they call it rock and roll
And when you believe they call it rock and roll
