

# Spoons, After The Institution

No more funny rooms, when  
I am hyper-active  
No more flashing lights

I am happy now, 'cause  
Doctor says I'm better  
I smile all the time

After the Institution  
Getting out and getting in again  
After the Institution  
I put my face back on

I had many friends  
In the institution  
Now I don't have one

Back on my old street  
I'm just entertainment  
I cooperate

I learned many things  
On my short vacation  
I'll erase it all

I'm not happy now, but  
Doctor says I am  
I kick in his head

That ought to show him!

After the Institution  
Getting out and getting in again  
After the Institution  
I put my face away

I am, I am nothing now!  
I am zero!
