

# Spoons, I've Been Here Before

The way it seems to me  
Some things will never change  
Standing in this room  
Watching every move  
Breathing the air I breathe  
Right beside me all around the world

Just then it reappears  
Cause Ive been here before  
Right beside you sometime long ago  
Everythings so unclear  
But Ive been here before  
Standing in this room

The way it seems to me  
Some things will never change  
Underneath this moon

Walking in your sleep  
The sleep of a million years  
Right beside me all around the world

Just then it reappears  
Cause Ive been here before  
Right beside you sometime long ago  
Everythings so unclear  
But Ive been here before  
Standing in this room

Just then it reappears  
Cause Ive been here before  
Right beside you sometime long ago  
Everythings so unclear  
But Ive been here before  
Right beside you sometime far away

Gone for another year  
But Ill be back again  
Right beside you all around the world  
Ive been here before  
Yeah Ive been here before  
Standing in this room
