Spoons, No Electrons

I take out my file Black on black on white I read with squinted eyes Still, the blur wont change Whats written down

Uptown delivery (it reads): Born without motor Without control No electrons here

I make out my will
To my friends of machinery
Of all things that Ive owned
Every point of mass excepting one

Uptown delivery (it reads):
Born without motor
Lacking response
Without control
No electrons
No protons
Nonexistent

No electrons here
