

# Spoons, Radio Heaven

Countdown to the top of radio heaven  
It makes me crazy just thinking it  
Downtown in a penthouse  
I wanna get even  
For all the times they turned their backs  
They turned their backs

With everything I give to you  
I play the game and hope for something

Radio heaven  
There aint nothing we wont do  
Nothing we wont do  
For radio heaven

Turned over on the side of the road  
In a fast car  
Thats not quite the way I see it  
On top of the world  
On top of my life  
Im not gonna mess this bed Im in  
This bed Im in

With everything thats serious  
I aint got time to think about nothing  
Radio heaven  
There aint nothing we wont do  
Nothing we wont do  
For radio heaven  
Were dancing straight to you  
Here we come...

We know where we wanna go  
We know what we wanna know  
It makes life easy  
We know what we wanna play  
We know what we wanna say  
It makes life easy

Radio heaven  
I want it to be true  
Radio heaven  
I die each night for you  
I die each night for you
