

# Spoons, Vertigo Tango

I live in colour when Im with you  
And everything I thought was true  
Only one thing I need to clear

Im in a vertigo tango  
Shot like an arrow  
When I look out my window  
The world goes by  
Like it doesnt even know Im here

Im in your power in your hands  
Lead me to the promised land  
Only one thing I know is true

Im in a vertigo tango  
Shot like an arrow  
When I look out my window  
The world goes by  
Like a rocket ship

Im in a vertigo tango  
Its so hard to swallow  
When I look out my window  
The world goes by  
Like it doesnt even know Im here

I tie myself like Odysseus  
As the Sirens call from the radio  
And we wont drop like dominos

Im in a vertigo tango  
Shot like an arrow  
When I look out my window  
The world goes by  
Like a rocket ship

Im in a vertigo tango  
Its so hard to swallow  
That when all the lights go  
We burn another page in history  
Again
