

# Spoons, Walk Across The Water

I watch the ceiling for an answer  
I lie in bed and in open cars  
Im checking heaven oh so human  
Im holding out for a miracle  
Things like aurora borealis  
Tidal waves and falling stars  
Make me wonder what Im doing  
Make me wonder how I got this far

I think of the better things  
In this life  
Theres got to be better things  
In this life  
We say...

Walk across the water  
Walk across the sea  
Walk across the water  
Just dont walk across me  
Walk...

I walk a fine line not a straight line  
Im talking circles all around the world  
I visit cities and famous buildings  
It doesnt change anything at all  
Things like a guitar and a movie  
Divert my mind to another place  
Were making nothing out of something  
And that somethings gonna hit me in the face

I think of the better things  
In this life...  
We say...

Walk across the water  
Walk across the sea  
Walk across the river  
Just dont walk across me  
Walk across the water  
Walk across the sea  
Walk across the water  
Just dont walk across me  
Walk...
