

Spring Heeled Jack USA, Morning Sun

My morning Sun - it'll light the way
My morning Sun - it'll light the way

When the road looks dark and long
I can always sing a song:
A never ending hymn of praise

My morning sun it takes me to another place
And I know the sun will shine for me
Each and every day.

My morning Sun - it'll light the way
My morning Sun - it'll light the way

My friend, you'll be there til the end I know
And when I'm lonely, so lonely
I can turn to you to warm upon my face
Bestow on me your shining grace
Heal my fears, melt my tears away

My morning sun it takes me to another place
And I know the sun will shine for me
Each and every day.

My morning Sun - it'll light the way
My morning Sun - it'll light the way

My morning sun it takes me to another place
And I know the sun will shine for me
Each and every day.

My morning Sun - it'll light the way
My morning Sun - it'll light the way
