

# Spring Heeled Jack USA, Nervous

You know I can't understand  
Why when you're around me  
I have to get so nervous  
And then I'll be just fine  
Until the time you unwind  
And then I go get nervous  
I realize that in time  
I could never make you what  
I want you to be  
So go right ahead  
Sit back and relax and watch  
What you're doin to me  
You know you make me so.  
I find it hard to believe  
That you're a straight-edge woman  
Sometimes you get caught up  
in that no show scene  
There was a time  
When I'd let my thoughts go jumpin'  
But right now  
I'm the only think that's real to me!!  
I said sittin' alone with you  
It makes me want to shiver  
And when you glance my way  
I can't help but starre  
But then it starts right over!!  
Sit down and talk a little  
Ok fine, that's fine  
Just leave me alone  
Cause if you hang around here  
You'll see me go crazy!!!
