

Sprung Monkey, American Made

My mind is screaming 45
Cause you're still alive
These signal lights i'm running through
Its all i can do
Just to get to you
You know i love you
You know i hate you
You know i need you
But i just cant take anymore

Time to take a walk
Out in the moonlight with my life
Cuz i just can't taky anymore
Anymore
American Made

I got my hands around your neck
I'm looking straight in your eyes
You taste the steel as you feel
If you're gonna lie
Then you're gonna die
You know i love you
You know i hate you
You know i need you
But i just can't take anymore
Time to take a walk
Out in the moonlight with my life
Cuz i just can't take anymore
Cuz i'm gonna tell you
I'm gonna see through
I'll suffer for you
I'm gonna kill you

You know i love you
You know i hate you
You know i need you
But i just can't take anymore
Time to take a walk
Out in the moonlight with my love
Cuz i just can't take anymore
Anymore
American Made
