

# Squad Five-O, Make You A Star

Well you're six foot two full of attitude  
With your sunglasses on at night  
You got the whole crowd screaming for more  
But you don't like it  
He's a has-been, not you, you're a will be  
You could be if given the chance  
So tell me how much did you pay for those pants  
And all the girls think you're out of sight  
Now all the kids are gonna stand in line

Yeah they are, they're gonna make you a star

And they hit the ground as they all fall down  
Checked by your ego at the door  
So tell me have you heard, what's the word?  
Knee jerk reaction  
You've been uptown, downtown, been all around town  
You ain't found nothing new  
And there ain't nobody here got nothing on you

Gonna make, gonna make you a star
