

# Squad Five-O, Make You Dance

Time goes so slow  
When we're flying thru the air  
Pretending we don't care  
That we're moving on a dare  
Cuz the edge is gone  
Low down mellow in the sky  
Watching clouds pass us by  
And we're hoping we don't die  
Cuz our time is on now  
We've got to make it there  
We can't go just anywhere  
We've got a job now  
We can't roam

Gotta make u dance  
Then we gotta get home

Time goes so fast  
When we're standing on a stage  
In the sweat and the rage  
And the kids are uncaged  
But our love is strong  
How can we say it with a smile  
That the world is in denial  
And they're selling little vials to the kids  
It's wrong

I'm tired of sleeping alone  
And talking on the phone  
In another time zone  
We've got to get back home
