

Squeeze, Heartbreak

Somethin's happenin' to me, deep in my heart
Really can't imagine what is tearing me apart
Got a spell on me must be your way
I'm acting really pityful girl I must say

Is this another heartbreak whooho
or just another summer carnival
Is this another heartbreak whooho
or just another college whoop to do

My daddy said I always wanted what I could never have
Well ever since I met you I wanted you so bad
Seems things never, never change and right when you think it's true
Then I go and stumble on a lullaby like you

Is this another heartbreak whooho
or just another summer carnival
Is this another heartbreak whooho
or just another college whoop to do

Saw you standin alone posin at the bar
Just about broke my neck tryin to find out who you are
There you go again smilin big at m
Okay, tell the truth, what's it gonna be.

Is this another heartbreak whooho
or just another summer carnival
Is this another heartbreak whooho
or just another college whoop to do
