

Squeeze Theeze Pleeze, Living Like A Zombie

Blow their heads I'm going to
Blow their minds I'm going on
Stay with us don't be alone
Don't be a dummy
We did care you've never known
Just find yourself don't be alone
There's nothing better but yourself

I now sing on my happiness
I'm feeling this loneliness
Just like a cloud over my head
That's getting bigger everywhere

Nothing that I'm feeling
