

Squeeze, Walk A Straight Line

(Difford/Tilbrook)

I need some help
Help to decide
Whether it's our love
That steps out of time
You say you need
Time on your own
Time to accept how
Our love has grown
And when you think about
All of the bad in me
Think about this too
How me and you could forever be

In need of help
Help to expand
With each others minds
Together to plan
Time in our lives
Time on our own
So one day we'll see
Our love has grown

And when that day arrives
I don't know where we'll be
But I hope that trust
Can be for us
And you'll still love me

I need some help
Help to be found
When you are alone
I won't let you down
We all need time
Time on our own
So we can step back
And see how love's grown

And when I'm stepping back
I hope that I will see
That faith can play a part today
For both you and me

And if love needs help
And if love needs time
Give love the strength
To walk a straight line
