

# SR-71, Lucky

I drown my girlfriend in her wishing well,  
I'm not afraid of afterlife hell.  
Cuz I live it everyday, I live it everyday.  
I lit a fire in my neighbors lawn,  
I dont know them, to me they were my pawns,  
Cuz I live it everyday, I live it everday!

[Chorus:]

I know its not considered right the way I live my days and nights  
I always thought I'd rather be considered lucky than good  
I know its not considered right and every days another fight,  
I always thought I'd rather bee considered lucky, than good

I buy my porn off the internet, I get so much fucking junk mail,  
my only regret cuz i live it everyday i live it everyday

[Chorus:]

I know its not considered right the way I live my days and nights  
I always thought I'd rather be considered lucky than good  
I know its not considered right and every days another fight,  
I always thought I'd rather bee considered lucky, than good

I know we dont think alike your always wrong I'm always right.  
Acting no so secretly you wanna be just like me

[Chorus:]

I know its not considered right the way I live my days and nights  
I always thought I'd rather be considered lucky than good  
I know its not considered right and every days another fight,  
I always thought I'd rather bee considered lucky, than good
