

St. Simon 3, Working Undercover For The Man

Down at the station
The cops are making a deal
For information
The need somebody to squeal
Well, everybody's got their problems
And we all do what we can
But I heard that someone's working
Undercover for the Man

Don't even kid yourself
That the cops don't know what goes down
In the clubs after hours
In this sleepy little town
So, while the police are patiently waiting
There's someone who's been infiltrating

It's really serious, this time around
You know that they're not jokin'
Don't start to point any fingers
Or they might end up getting broke

And now it seems that everyone's getting so mean
This suspicion is tearing up
Our cozy little scene
Well, everybody's got their problems
And we all do what we can
But I heard that someone's working
Undercover for the Man
