

Stabilizer, Faceless Greed

in the darkness a door slams
to cover blinding greedy mouths

adding, subtracting
exceeding the billions
turn the lock and look inside

the lights shine on creatures climbing
stepping over, climbing over
the crimes go on, no one trying
the time has come.....

turn around
burn it down
we can turn this all around
don't give way
to the race of faceless greed

don't give way to the race
of faceless greed
they destroy the beauty
they destroy the history
