

Stacey Earle, Simple Gearle

I don't need no diamond ring, I don't need much of anything
You're a good man, I'll wear your golden band
We've got a house with a porch and a swing
And I will be your simple gearle

I don't need no fancy car, I'm not going very far
That's OK, don't want to go anyway
I can stay home and be your star
I will be your simple gearle
I'll be your simple gearle

We don't need a lot, happy with what we got
If we had everything, it would not be the same
Turn out the kitchen light, let's sit outside tonight
I'll be your simple gearle

Now we've got a house full of them sweet little things
So much joy in the love they bring
Why the boys and the gearles, they are my world
But, honey you'll always be my everything
And I will be your simple gearle
Your ssssimple gearle
I'll be your simple gearle
