

Stacie Orrico, Wrong

She's got it all wrong
she's got it all backwards
she thinks her life's gone
she thinks it's a disaster
but little does she know
that God is there
he's always been and
always will be beside her...

Chorus

she thinks she missed it all
and she thinks her life is o-over
but God will come to save her
oooh just to save her from her fall...
She's got it all wrong

she's knowing what's right
she's thinking she was twisted
she put up a fight
oh or she woulda missed it
oh little does she know
that Christ was there
all along
and she never was without him

Chorus

She thought she missed it all
and she thought her life was o-over
but God came to save her
oh he came to save her from her fall
she had it all wrong

Oooo she never would have been here
if Christ wasn't first here
He was always with her
And now she knows

Chorus

She thought she missed it all
and she thought her life was o-over
(1, 2, 3, 4)
But He came to save her
O-o-oh just to save her
from her her fall
she had it wrong

Mmm

And now, ooooo now,
She's got it all right
