

Stage, I Don't Know

Send my regards to my brother down there
He walks by the ocean, the pain disappears
The sky is fallin, heaven's unknow
And you find out the clouds were never alone
Singing Oh...

Will I remember you name
I don't know
Will I remember you name
I don't know

Send my regards to my lover down there
She sleeps by the music, she breathe in my air
The people are saying, the lost must be strong
But her ears are now ringing, her man of song
Singing Oh...

Will I remember you name
I don't know
Will I remember you name
I don't know
Will I remember you name
I don't know

Send my regards to my mother down there
She gave me my name and my brown-colored hair
The man to my left says he's Moses in black
And the world is sad now, so I'm doing back
Singing Oh...

Will I remember you name
I don't know
Will I remember you name
I don't know
