

# Stage, I Know Where You Are

I hope that you missed me  
I'm glad that you kissed me  
I'll See you again when I die know that I missed you  
know that I'll kiss you  
Whenever an angel flies by

Crazy in bathtubs  
Those innocent backrubs  
Demons were scared of thee  
I know its confusing,  
I know its amusing  
The devil is inside of me

I know where you are  
I know where you are

So thanks for my music  
You know that I used it  
I named every song after you  
The guitar is stronger  
I learned how to love her  
Her wood brings me closer to truth

I know where you are  
I know where you are  
I know where you are

We Walk, we find  
I dance by your inner mind

I just want to thank you  
The pain made me stronger  
The artist is what I will stay  
Know I'll forgive you  
Hope I'll outlive you  
I'm glad that you stood in my way

I know where you are  
I know where you are  
I know where you are  
I know where you are

Want to thank you my friend  
Want to thank you again  
Want to thank you my friend  
want to thank you again

Want to thank you.....
