## Stage, The World Has Come Between Us

Be here love And the world has come between us Be here love And the world has come between us

We are so right here You are so young Let's misbehave And we'll find the edge of the world

Be here love And the world has come between us Be here love And the world has come between us

You are so right here
We are so young
Let's misbehave
And we'll find the edge of the world

Be here love And the world has come between us Be here love And the world has come between us

Be here love Be here love Be here love

Be here love And the world has come between us Be here love And the world has come between us
