Staind, All I Want

What I leave, When you go, What I see, And what you show, And what I guess, And when I don't, Is something you all ready, all ready know,

I can't live without, All I think about, All I want is you, You're all I dream about, I can't live without, All I want is you,

The things I do, I go through, And all I see, When Im awake, And what I make, The shit that I take, Is something you all ready, all ready know

I can't live without, All I think about, All I want is you, You're all I dream about, I can't live without, All I want is you,

Ohhh,... Is you, Is you, Is you, Is you, You're all I dream about, That I can't live without, All I want is you

I can't live without, All I think about, All I want is you, You're all I dream about, I can't live without, All I want is you, I just can't live without you, When all I think about is you, And all I want is you
