Staind, All I Want

What I leave,
When you go,
What I see,
And what you show,
And what I guess,
And when I don't,
Is something you all ready, all ready know,

I can't live without, All I think about, All I want is you, You're all I dream about, I can't live without, All I want is you,

The things I do, I go through, And all I see, When Im awake, And what I make, The shit that I take, Is something you all ready, all ready know

I can't live without, All I think about, All I want is you, You're all I dream about, I can't live without, All I want is you,

Ohhh,...
Is you,
Is you,
Is you,
Is you,
You're all I dream about,
That I can't live without,
All I want is you

I can't live without,
All I think about,
All I want is you,
You're all I dream about,
I can't live without,
All I want is you,
I just can't live without you,
When all I think about is you,
And all I want is you
