

Staind, Save Me

This dark road
Another cigarette
The carpet's strewn
I'm getting sick of it
The end is near
I'm in the thick of it
And I'll be there soon
If you can handle it

Just save me
From all that I am
You save me
For the fuck of it
Save me
Just hold out your hand
You save me
For all of it

I try to speak myself
You can do it too
I need no ones help
I'm needing only you
So just pray for me
And deliver it
You never take me
What I'm giving

Just save me
From all that I am
You save me
For the fuck of it
Save me
Just hold out your hand
You save me
For all of it

And all that I've become is you
The only good in me is you
And after all of this
The day will come to
Find out will you
Take me
Or forsake me
So pray for me
Am i forgiven
For what you take from me

Just save me
From all that I am
You save me
For the fuck of it
Save me
Just hold out your hand
You save me
From all of it
Come save me

Pray for me
Am i Forgiven
