

# Staind, Take it

I feel like they  
won't go away  
no matter how  
hard i try to  
squeeze my eyes shut  
so i can't see  
the pain in you  
that's painin me, in me

\*CHORUS\*-----

everything that i can say to you  
won't help you  
everything you need is right in front of you  
so take it

\*CHORUS\*-----

i know that i'm  
really not here  
to represent  
what i'm not clear  
about in my head  
sometimes i feel  
fucked up just  
like you do, like you do

\*CHORUS\*

try to make it thru the daily pain  
that you feel  
maybe tomorrow won't be so bad  
i know it  
cause i once felt that way  
nothing i could say  
made it go away  
i live thru this  
i still feel this  
i just lived for  
my tomorrow  
so make it go away  
just make it go away  
she'll make it go away (2x)
