

# Staind, Voices In The Rain

We changed the rhyme  
Forget the reason  
Waiting for the change of seasons  
Drawing near, its almost here  
So safe tonight, forget tomorrow  
Say goodbye to time we borrowed  
Its always there  
Its in the air  
Like voices in the rain  
Like a song without a name  
Like angels wings & whisperings  
Of love we lost & found along the way  
Do you take the time to really wallow  
In the footsteps that you follow?  
Gets you there, gets you anywhere  
So here today & gone tomorrow  
With the time you had to borrow  
Its always there  
Its in the air  
Like voices in the rain  
Like a song without a name  
Like angels wings & whisperings  
Of love we lost & found along the way  
Like voices in the rain  
Like a song without a name  
Like angels wings & whisperings  
Of time we lost & found out in the rain  
Like a song without a name  
(This wasnt how its supposed to be)  
Like angels wings & whisperings  
(Like the moments we still have saved)  
Of love we lost, of love we lost  
(The things we forgot to say)  
And found along the way  
We found along the way  
We found along the way
