

Staind, Voices In The Rain

We changed the rhyme
Forget the reason
Waiting for the change of seasons
Drawing near, its almost here
So safe tonight, forget tomorrow
Say goodbye to time we borrowed
Its always there
Its in the air
Like voices in the rain
Like a song without a name
Like angels wings & whisperings
Of love we lost & found along the way
Do you take the time to really wallow
In the footsteps that you follow?
Gets you there, gets you anywhere
So here today & gone tomorrow
With the time you had to borrow
Its always there
Its in the air
Like voices in the rain
Like a song without a name
Like angels wings & whisperings
Of love we lost & found along the way
Like voices in the rain
Like a song without a name
Like angels wings & whisperings
Of time we lost & found out in the rain
Like a song without a name
(This wasnt how its supposed to be)
Like angels wings & whisperings
(Like the moments we still have saved)
Of love we lost, of love we lost
(The things we forgot to say)
And found along the way
We found along the way
We found along the way
