

Stan Bush, Ground Zero

In a cold, far away world
A battle is raging 'tween evil and good
From the stars, they came here to Earth
Caught in their struggle through the whole universe
Robotic warriors giving their all
Fight in disguise, 'til the victor stands tall

Ground Zero
Nowhere to go
Got to be willing to fight
Ground Zero
One thing they know
Only the strong will survive
Ground Zero

A lone soldier fighting the war
Used the power and wisdom
From those gone before
Leads them on to victory
Lights their darkest hour
Their one destiny
Truth has its moment and right always wins
Prepare for the fight, let the battle begin

Ground Zero
Nowhere to go
Got to be willing to fight
Ground Zero
One thing they know
Only the strong will survive
Ground Zero

Galaxy's worried they'll retreat
To this darkest corner
With the enemy gone
They will finally live on
As they revel in their victory

Truth has its moment and right always wins
Prepare for the fight, let the battle begin

Ground Zero
All is not lost
Evil's defeated again
Ground Zero
No matter the cost
Won't give up till all are one

Ground Zero
Nowhere to go
Got to be willing to fight
Ground Zero
One thing they know
Only the strong will survive
Ground Zero
Ground Zero
Ground Zero
Ground Zero
