

Stan Bush, Hard To Find An Easy Way

Another shot of midnight
On the same streets we used to run
You had me believin' baby that our fire had just begun
I tried to forget you girl, but one thing that still remains
I find myself holdin' on to an empty dream
Since you've been gone

(Chorus)

And it's hard to find an easy way to let you go
When you love like a lady but fall like a little girl
And it's hard to find an easy way to close the door
Every time I try to walk away
I see your eyes and I wanna stay
It's hard to find an easy way

At times I thought we had it all
But did it really mean that much
Love don't need no reason, baby
When I think about your touch
Girl, you're more than a faded dream
And there's nothing that I can do
I could reach out to someone else
But it takes me back to you

(Repeat Chorus)

It's hard to find an easy way to let you go
It's hard to find an easy way, ooh yeah

(Repeat Chorus)
