

# Stan Bush, When I Dream

Seems the road goes on and on  
And it never ends  
And in my heart where I belong  
Is there with you  
You know I'd be right by your side  
If I only could  
But on a train called fate I ride, oh oh

Now it seems like you're  
A million miles away  
Soon I'll be comin' home to you  
Girl, I wanna but there's  
One more song to play  
So for now I'm gonna close my eyes  
Pretend you're here with me  
And I'll be with you  
When I dream

Sometimes I wonder late at night  
When I'm all alone  
If I could live another life, oh  
How could I leave this all behind  
When it's a part of me  
That without, I surely would die  
Tell me why

Now it seems like you're  
A million miles away  
Soon I'll be comin' home to you  
Girl, I wanna but there's  
One more song to play  
So for now I'm gonna close my eyes  
Pretend you're here with me  
And I'll be with you  
When I dream
