

# Stan Ridgway, Beyond Tomorrow

Chorus:

Beyond tomorrow  
Beyond tomorrow  
Beyond tomorrow  
Beyond tomorrow

We will be driving in  
Little time bombs everywhere  
On a street in a skyscraper  
With aluminum hair  
There'll be someone downstairs  
Collecting all our names  
Numbers all in a file somewhere  
Everyone will be saved

Chorus repeat

Someone will be in the air  
In a plane by the sea  
I could be anywhere at all  
If I could just be  
I'll eat candied policemen  
You'll eat farmers from hell  
Everyone will be very modern  
Can't you tell?

Chorus repeat

There could be another one  
Come from the East  
With a mark on his head  
The sign of the beast  
Then we will all extinguish  
From this thing we call yeast  
Did we come from yeast?

Chorus repeat

Way back when in a petri dish  
We were mated with some weird kind of fish  
Then we grew arms and legs  
Now we have 'em alive, no eggs

In a room far away near the capitol  
There's a box that sits on someone's skull  
We'll all be waitin' for the word comin' down  
Meantime... let's blow this town

Chorus repeat x6 or 7
