Hat Tipping

Cartoon moons pour milky white glow
share with the sea there's enough for everyone
surface shimmers like kick off at nou camp weary hats
and homesick hearts for we miss our constituent parts
saw nothing but visited all walls of film
film of walls
and when you return nobody calls
acre wide smiles in the welcoming halls
polishing crystal on tabletops white
but all the seats are empty on film night
camera clocks clutched as a crutch too expensive to touch.
