

Starfield, Great In All The Earth

The world is Yours, and everything in it
It's all in Your command
There is no end, to Your domain
The planets shake, the galaxies tremble
They turn within Your hands
There is no end, to Your domain
No height or depth, You don't sustain
Great in all the Earth is Your glory oh God
The universe declares how amazing You are
Over history, and eternity, You alone are Lord and King
The world is Yours, and everything in it
It's all in Your command
There is no end, to Your domain
No height or depth, You don't sustain
There is none like You
There is none like You
There is none like You
Jesus there is none like You
You alone (You alone)
You alone (You alone)
You alone (You alone)
