

# Starflyer 59, Easy Street

Get me back on Easy Street  
Where there's easy leads  
With no troubles at all  
No desperate calls

There's a new life that leaves our miseries far behind where they follow  
Destiny lives to leave uneasy dreams far behind where they follow

Long distance dreams of me  
Of a life with easy needs  
With no troubles at all  
No desperate calls

There's a new life that leaves our miseries far behind where they follow  
Destiny lives to leave uneasy dreams far behind where they follow

There's a new life that leaves our miseries far behind where they follow  
Destiny lives to leave uneasy dreams far behind where they follow  
On Easy Street
