

Starflyer 59, It's Alright Blondie

I can't get it off my mind
Cause I hear it all the time
This is gonna be the night
I think it's just another night

Make it seem like make believe
I'm tired, I never sleep

I can't seem to make it through
Because I try it all the time
Is this gonna be the night
I think it's just another night

Alright, alright
