

# Starflyer 59, It's Alright Blondie

I can't get it off my mind  
Cause I hear it all the time  
This is gonna be the night  
I think it's just another night

Make it seem like make believe  
I'm tired, I never sleep

I can't seem to make it through  
Because I try it all the time  
Is this gonna be the night  
I think it's just another night

Alright, alright
