

Starflyer 59, My Island

I'm only pushing buttons
Maybe you should come in and try
It's really not that funny
When you're working overtime

My first guess is
This is not a penny arcade
Know what's best
So don't you ever get in the way

My island, option/control of new information
My island, taking control of misinformation

Others get to leisure
Others soon will retire
It's really not that funny
When you're working overtime
