

# Starflyer 59, The Longest Line

I've got one destination  
For Jesus to call me home  
For faces sad and wasted  
Oh that we would be known

It's all in good time  
To get in the longest line  
It's all in good time

For hearts that live in patience  
For hearts that just live alone  
To fix the sad and wasted  
Oh that we would be known

It's all in good time  
To get in the longest line  
To get in the longest line  
To get in the longest line

The bright star is coming to meet the needful  
So get in the longest line
