

# Staring Back, Change Of Heart

don't know how we came to be  
ask me if I care  
you wanna have what I got?  
just pick yourself up off the ground  
do you really care?

it doesn't take much out of you  
you just never tried  
because we care so much for you  
you just have to change your mind

don't know what you said to me  
I couldn't bear to hear  
your point of view and  
your claim to your own helplessness  
I dare you to care

it doesn't take much out of you  
I'd like to think that I need you
