

Staring Back, Interstate

Oh man how I love the interstate
Wind in my hair feels great
Got no watch on my wrist
Gives me a good reason for being late
I tried to explain this all to you
I need the skies and I need you
Oh man how I love the interstate
Nothing bad and complicated
Got no place to travel
Gives me a good reason to just sit and wait
I tried to explain this all to you
I need the skies and I need you
