

# Starlight Mints, Blinded By You

&quot;Blinded by You&quot;

I saw the flames.  
Radar sustained.  
Your grace explains  
your brain, my congestion.

Blinded by you

I saw the crops disappear.  
I heard a crash.  
I felt the blast.

(I know why) Gravity stops today.  
(I know why) Astronomy blown away.  
(I know why) You chose me, you chose me.

Blinded by you

(swing, swing, swing)

Blinded by you

(swing, swing, swing)

Blinded by you (swing all the time)

(swing, swing, swing)

Blinded by you (swing all the time)
