

# Starplash & Daisy Dee, I believe

I can't sleep my head is breezing  
As a look into the night  
And my troubles got me thinking  
No one else's on my side  
And want it this on tomorrow  
Was I wrong or was I right?  
No more feels and no more shame  
I gotta fight for want it mine  
I believe  
Everything will be all right  
I believe  
I believe, we are all right  
Near sunsets do at this  
All depend I know what know  
I believe  
After the darkness in the night  
The sun will shine  
It's the time to make some changes  
But we know want work again  
Letting go my expectations  
And let you know 'cause where I stay  
You want it this on tomorrow  
I know why yet got I have  
If you wonder as was mine  
If you want the time what I got
